Hello, Cem -

I am writing to inform you (and to thank you!) for your excellent artistic piece, "Themis and Court", posted at <http://justicecartoons.blogspot.com/2016/06/juvenile-justice.html> (and elsewhere)! It is the most poignant artwork I have seen that depicts — ever so perfectly — the chasm/dichotomy between "true justice, properly so-called" and "the judicial system, as-we-have-it".

For that reason, I am proposing to use your beautiful piece as the logo of a new website I am currently putting together. I do, of course, thankfully credit your work (see <http://judicialmisconduct.us/About/Logo>). [Please note this website is still under construction, not yet open to the general public.]

I very much hope this meets with your approval, as an appropriate usage/destiny of your vision!

Cheers!

Hello Walt,

I'm pleased to hear that you enjoyed my work. You may use my piece "Themis and Court" as your logo. It would be my pleasure. My goal is to see my cartoons reaching as many people as they can.

I've looked at the link you sent me. I would prefer to have my main international cartoon blog link in there too, if it's not too much trouble (<http://justicecartoons.blogspot.com>) Other than that, I thank you for what you've written. I like it.

I wish you success on your website and good luck!

All the best,  
Cem Koc

Done, Sir! Thank you for this additional reference (please check it at your convenience). And thank you again for your beautiful work!

Like you, I have no ambitions to profit from the work I'm doing on my new website (it is/will be all public-domain). I only hope to advance the world ...

Hello again, Cem —

Perhaps you remember me, from when I inquired about your *Themis and Court*, which I'm using on my website (with grateful attribution to you), <http://JudicialMisconduct.US>.

I'm writing to you now, to offer my help to others, in other countries, who might be interested in "franchising" (freely, of course) the idea of Judicial Misconduct websites in their own countries. If you become aware of any such, please have them contact me, and I'll be happy to share the web-design designs I've used. That may help give them a "head-start" — just as your cartoon gave me a head-start (I could never produce art-work so perfectly).

Cheers!
