14 vs.

15 ELON MUSK,

16 Defendant.

Case No. 2:18-cv-08048

Judge: Hon. Stephen V. Wilson

**DEFENDANT ELON MUSK'S  
 REPLY IN SUPPORT OF MOTION  
 TO DISMISS PLAINTIFF VERNON  
 UNSWORTH'S COMPLAINT**

Date: April 1, 2019  
 Time: 1:30 p.m.  
 Place: Courtroom 10A

Complaint Filed: Sept. 17, 2018  
 Trial Date: None set

50 Am. Jur. 2d Libel and Slander § 115 ..... 8

1 **I. INTRODUCTION & SUMMARY OF FACTS**

2 This dispute began when Unsworth decided to publicly launch false and  
3 inflammatory attacks against Musk and his team of volunteer engineers who were  
4 helping the Thai government, at the government’s request, to address an intractable  
5 national tragedy. Musk and his team deployed their time, skills and resources to help  
6 in any way they could—efforts later called “expeditious and extraordinary” by  
7 Thailand’s Prime Minister.<sup>1</sup> Only after Unsworth’s actions did Musk respond in  
8 kind. Unsworth, now casting himself a “hero” ignores all this (and the First  
9 Amendment) in his effort to prevail.

10 On June 24, 2018, twelve Thai boys and their soccer coach were trapped in a  
11 Thai cave after a flash flood. Initial, frantic efforts to rescue the team were  
12 abandoned because of rising waters and the death of a Thai rescue diver.

13 Given this unparalleled engineering challenge, hundreds of people online and  
14 on the ground asked Musk if he could help. Musk responded that he believed the  
15 Thai government already had the matter “under control.”<sup>2</sup> Nevertheless, concerned  
16 about the fate of these young men as circumstances turned more dire, and knowing  
17 that some of the world’s best engineers worked with him, Musk publicly committed  
18 to help in any way he could. In the days that followed, the Thai rescue efforts  
19 remained stalled, and representatives of the Thai government and other officials  
20 called upon Musk.

21 Musk immediately got to work and publicly shared what he was doing so that  
22 others who were “closer to the problem” could consider it.<sup>3</sup> Musk and fellow  
23 engineers from Tesla, SpaceX, and the Boring Company, began developing a range  
24

1 of solutions that could be used to save the team. On or about July 6, the first batch of  
2 Musk’s colleagues went to Chiang Rai, Thailand. As the engineers were evaluating  
3 conditions on the ground, Musk and others were feverishly, and at significant cost,  
4 applying their knowledge of transportation systems to come up with a solution. By  
5 July 7, Musk had received preliminary feedback from the teams in Thailand, and  
6 began creating something that no one had before: a child-sized mini-submarine made  
7 out of rocket parts. At the same time, the co-leader of the rescue team, with whom  
8 Musk was in regular contact, specifically implored Musk to “continu[e] with the  
9 development” of his system.<sup>4</sup> All the while, Musk applauded the “extremely talented  
10 dive team” and “continue[d] to be amazed by the bravery, resilience & tenacity of  
11 [the] kids and diving team in Thailand. Human character at its best.”<sup>5</sup>

12 In addition to the hyper-accelerated design and construction of the mini-  
13 submarine, Musk and his team provided resources for pumping water to help drain  
14 the rainfall and surveyed the area in an effort to increase airflow into the cave. Musk  
15 arranged to provide valuable equipment to the rescue team, including ground sump  
16 pumps, Tesla Powerwalls, underwater surveying equipment, sonar scanners, and a  
17 3D laser tracker.

18 By July 9, Musk himself put aside his personal and professional commitments  
19 and traveled to Thailand. The country’s most senior officials, including the Prime  
20 Minister and members of the Army and Navy, greeted Musk and escorted him to the  
21 cave rescue site.

22 By July 10, the children were rescued. Although the mini-submarine was  
23 ultimately not necessary because conditions had changed, SpaceX engineers  
24

---

26 dated July 7-8, 2018).

27 <sup>5</sup> Elon Musk (@elonmusk), Twitter (July 7, 2019),  
28 <https://twitter.com/elonmusk/status/1015835053807394816>; Elon Musk  
(@elonmusk), Twitter (July 7, 2019),  
<https://twitter.com/elonmusk/status/1015665633504063488>.

1 remained in Thailand to train the Thai Navy on how to use it should it be needed in  
2 the future.

12 The mini-submarine remains in Thailand to this day.<sup>6</sup> The Thai Prime  
13 Minister,<sup>7</sup> the Royal Thai Special Forces,<sup>8</sup> and the Royal Thai Army<sup>9</sup> all formally  
14 honored Musk and his team for their efforts.<sup>10</sup> Musk, however, reserved his  
15 accolades for the rescue team.

16 While Musk and his team were relieved that they were able to help the mission  
17 and returned to their professional obligations, Unsworth had something quite  
18 different in mind. On July 13, with no provocation, Unsworth went on international  
19 television to attack Musk and the other Tesla, SpaceX, and the Boring Company  
20

28 rescue).

(Continued...)

1 engineers. The only possible explanation for Unsworth’s baseless attacks is that he  
2 was angered by Musk’s humanitarian efforts and craved public adoration for himself.  
3 In a CNN interview, Unsworth falsely characterized Musk and his team’s  
4 unprecedented efforts as “just a PR stunt” and told Musk to “stick his submarine  
5 where it hurts.”<sup>11</sup> In fact, the Thai Prime Minister commended Musk for his  
6 “extraordinary efforts” and one of the leaders of the rescue said Musk’s submarine  
7 could be “a viable alternative in future underwater rescue scenarios.” (Compl. Ex. K.  
8 at pp. 60-61.) Likewise, Unsworth falsely claimed that Musk was “asked to leave”  
9 the dive site, when in fact Musk was invited to the site by Thai military officials who  
10 eagerly escorted him around the terrain. Unsworth was also savvy in his insults,  
11 hurling them in a way to have maximum public impact, and they did. Unsworth’s  
12 comments were widely covered in the press and amplified globally.

13 Musk was justifiably offended that a stranger would disparage his team’s  
14 humanitarian efforts and tireless work. On July 15, Musk took to Twitter and  
15 responded to Unsworth in kind. He did so only after explaining that he had never  
16 met Unsworth and had no idea who he was. In the weeks that followed, Unsworth’s  
17 counsel tweeted at Musk and three reporters, tauntingly telling Musk to check his  
18 mail for a legal threat. More words were exchanged, and this suit followed.

## 19 **II. LEGAL BACKGROUND**

20 Musk’s motion lays out the correct legal standard and dutifully applies it to the  
21 complaint as pleaded. As succinctly explained by the First Circuit, “even a provably  
22 false statement is not actionable if it is plain that the speaker is expressing a  
23 subjective view, an interpretation, a theory, conjecture, or surmise, rather than  
24 claiming to be in possession of objectively verifiable facts.” *Riley v. Harr*, 292 F.3d  
25 282, 289 (1st Cir. 2002) (quoting *Haynes v. Alfred A. Knopf, Inc.*, 8 F.3d 1222, 1227  
26

---

27 <sup>11</sup> See CNN, *Caver Calls Elon Musk’s Submarine a ‘PR Stunt,’*  
28 <https://money.cnn.com/video/technology/2018/07/15/vernon-unsworth.cnnmoney/index.html> [“CNN Video”].

1 (7th Cir. 1993)). Applying this rule, Unsworth’s complaint fails because he cannot  
 2 show “that the reasonable reader would believe Musk possessed private facts  
 3 implicating Unsworth as a pedophile.” (Dkt. No. 30 (“Mtn.”) at 8.) The reasonable  
 4 reader knew, among other things, that Musk’s statements were all in direct response  
 5 to Unsworth’s groundless attack on Musk’s and his team’s efforts, made without  
 6 having met Unsworth, cast on unmoderated internet mediums, and made in reference  
 7 to well-known, disclosed tropes about Thailand. The totality of the circumstances  
 8 shows that Musk’s statements were imaginative and non-literal insults. Indeed,  
 9 courts have dismissed defamation claims based on statements that the plaintiff was  
 10 “a sick pedophile loser,”<sup>12</sup> had “poor feminine hygiene,”<sup>13</sup> had “sex with a horse” and  
 11 “contracted AIDS from a male prostitute,”<sup>14</sup> and committed acts of incest.<sup>15</sup>

12 In contrast to Musk’s proper statement of the law, Unsworth proposes this  
 13 Court apply an incorrect standard to his claim. Unsworth stakes his claim on  
 14 *Milkovich v. Lorain Journal*, a case that Unsworth seems to believe can defeat any  
 15 defamation defense. As courts have explained in other cases in which Unsworth’s  
 16 counsel has been involved, that reliance is unwarranted.<sup>16</sup>

17 Unsworth faults Musk for citing *Milkovich* “only twice.” There was reason for  
 18 that: *Milkovich* has little to do with this case. *Milkovich* teaches how to analyze a  
 19

20 <sup>12</sup> *Torain v. Liu*, 2007 WL 2331073, at \*2 (S.D.N.Y. Aug. 16, 2007), aff’d, 279 F.  
 21 App’x 46 (2d Cir. 2008) (hereinafter, “*Torain I*”).

22 <sup>13</sup> *Krinsky v. Doe 6*, 159 Cal. App. 4th 1154 (2008).

23 <sup>14</sup> *Finkel v. Dauber*, 906 N.Y.S.2d 697 (Sup. Ct. 2010)

24 <sup>15</sup> *Wallace v. Geckosystems Int’l Corp.*, 2013 WL 4054147, at \*7-8 (Del. Super. Ct.  
 25 July 31, 2013).

26 <sup>16</sup> Unsworth’s counsel has been told by courts that *Milkovich* doesn’t say what he  
 27 insists it does. See *Bryant v. Cox Enterprises, Inc.*, 715 S.E.2d 458, 466 n.29 (Ga.  
 28 App. 2011) (affirming dismissal of case brought by Unsworth’s counsel and  
 questioning Unsworth’s counsel’s “hyper-technical reading of the second level of  
 falsity as set forth in *Milkovich*”). Likewise, Unsworth’s counsel has been told that  
*Milkovich* isn’t as pivotal of a decision as he seems to believe. *Adelson v. Harris*,  
 973 F. Supp. 2d 467, 488 n.17 (S.D.N.Y. 2013), aff’d, 876 F.3d 413 (2d Cir. 2017)  
 (granting Anti-SLAPP motion against case brought by Unsworth’s counsel and  
 explaining that “*Milkovich* [has] had little impact on the law”).

1 statement of ostensible opinion that is really a statement of fact (e.g., “I think Jones  
2 is an alcoholic”). This case, however, involves a statement of ostensible fact that is  
3 really nonactionable opinion (e.g., “Jones is a sociopath”). As recognized in  
4 *Milkovich* itself, these mirror scenarios involve different doctrines. 497 U.S. 1, 16-17  
5 (1991).

6 Unsworth claims that the motion does not “unearth a single case” holding that  
7 the reasonable reader must believe a speaker possesses a factual basis substantiating  
8 an allegedly defamatory statement. (Opp. at 7.) Again, Unsworth is wrong. Musk’s  
9 motion cited case after case dismissing defamation claims because the reasonable  
10 reader would not have believed the speaker to be “imparting knowledge of actual  
11 facts to the reader”—despite the speaker having made otherwise provably false  
12 statements in those cases.<sup>17</sup> (Mtn. at 9 (quoting *Krinsky*, 159 Cal. App. 4th at 1177;  
13 *Riley*, 292 F.3d at 289 (“[E]ven a provably false statement is not actionable if it is  
14 plain that the speaker is expressing a subjective view, an interpretation, a theory,  
15 conjecture, or surmise, rather than claiming to be in possession of objectively  
16 verifiable facts.” (citation omitted).)

17 Unsworth also argues that an opinion based on disclosed facts is defamatory  
18 “if the disclosed basis is false or incomplete.” (Opp. at 8.) That summary skips the  
19 most important part of the rule—to be actionable, a disclosed basis must be false or  
20 incomplete *and itself defamatory*. See *Standing Comm. on Discipline of U.S. Dist.*  
21 *Ct. for C.D. Cal. v. Yagman*, 55 F.3d 1430, 1439 (9th Cir. 1995) (“A statement of  
22 opinion based on fully disclosed facts can be punished only if the stated facts are  
23 themselves false and demeaning.”).

24 Unsworth next fashions his own proposed standard, which establishes a whole  
25 new world where defamation is broad and the First Amendment is limited. For  
26

---

27  
28 <sup>17</sup> For purposes of Musk’s motion to dismiss, Musk accepts the complaint’s  
allegations as true, including that the statements at issue were false.

1 example, he repeatedly cites *Moldea v. New York Times Co.*, a case that applied  
2 *Milkovich* to find the New York Times liable for writing that a book contained  
3 “sloppy journalism.” 15 F.3d 1137, 1145 (D.C. Cir. 1994).

4 That opinion remained good law for all of three months. After a petition for  
5 rehearing, the court “confess[ed] error” about its “misguided” opinion. *Moldea v.*  
6 *New York Times Co.*, 22 F.3d 310, 311, 314 (D.C. Cir. 1994). That original opinion  
7 had “[u]nfortunately” concluded that under *Milkovich* “context was irrelevant,” when  
8 in fact “*Milkovich* did not disavow the importance of context.” *Id.* Reflecting on its  
9 mistake, the court said it learned a valuable lesson: the “First Amendment requires  
10 that we protect some falsehood in order to protect speech that matters.” *Id.* at 317  
11 (citations omitted).

12 Other opinions cheered by Unsworth are equally wrong. Courts have said  
13 many things about defamation. The cases upon which Unsworth relies are those that  
14 have reached incorrect results based on thin reasoning and do real harm to free  
15 speech. This Circuit, however, has more robust protections for First Amendment  
16 activity than Unsworth lets on.

17 Unsworth takes similar liberties with the motion’s arguments, caricaturing  
18 them to appear unreasonable. He claims, for example, that “Musk asks this Court to  
19 openly sanction one-sided Twitter warfare, where *no one* is safe because *nobody* can  
20 be held accountable and *all* reputations are at grave risk.” (Opp. at 8 (emphasis  
21 added).) Anyone who read Musk’s motion knows that is not what he argued.  
22 Instead, Musk showed that modern caselaw recognizes a *presumption* that statements  
23 made on unmoderated internet forums, like Twitter, are nonactionable opinion. *See*  
24 *Summit Bank v. Rogers*, 206 Cal. App. 4th 669, 696 (2012) (explaining that the  
25 reader “should be *predisposed* to view [such statements] with a certain amount of  
26 skepticism, and with an understanding that they will *likely* present one-sided  
27 viewpoints rather than assertions of provable facts”). And Unsworth also ignores  
28 that this factor is just one of *seven* that *together*—the “totality of circumstances”—

1 reveal that Musk’s statements were nonactionable opinion and therefore protected by  
2 the First Amendment. *Underwager v. Channel 9 Austl.*, 69 F.3d 361, 366 (9th Cir.  
3 1995).

4 In short, Unsworth’s opposition was a response to a motion Musk did not file.  
5 When applying the actual pleaded facts to the actual law tested against Musk’s actual  
6 arguments, Unsworth’s complaint fails and Musk’s motion to dismiss should be  
7 granted.

### 8 **III. ARGUMENT**

#### 9 **A. Unsworth Ignores The Controlling Legal Standard**

10 Unsworth bears the burden to “prove that the reasonable reader would believe  
11 Musk possessed private facts implicating Unsworth as a pedophile.” (Mtn. at 8; *see*  
12 *also Troy Group, Inc. v. Tilson*, 364 F. Supp. 2d 1149, 1152 (C.D. Cal. 2005) (“[T]o  
13 survive a motion to dismiss, a plaintiff must establish both that the words about  
14 which they complain are reasonably capable of sustaining a defamatory meaning,  
15 and that they are not mere comment within the ambit of the First Amendment.”  
16 (citations omitted).)

17 The Supreme Court has repeatedly held that a statement cannot be actionable  
18 unless the reasonable reader would think that the speaker is “stating actual facts.”  
19 *Milkovich*, 497 U.S. at 20 (quoting *Falwell*, 485 U.S. at 50). In so doing, the  
20 Supreme Court has protected speech that is not “reasonably believable.” *Falwell*,  
21 485 U.S. at 57. For example, the Court rejected a defamation claim based on a  
22 statement describing the plaintiff’s negotiating proposals as “blackmail.” *Greenbelt*  
23 *Co-op. Pub. Ass’n v. Bresler*, 398 U.S. 6, 14 (1970). Among the reasons for rejecting  
24 this claim was that “no one in the city [where the statement was published] or  
25 anywhere else thought [the plaintiff] had been charged with a crime.” *Id.*

26 Building on the Supreme Court’s principles, lower courts have crystalized this  
27 standard: “[E]ven a provably false statement is not actionable if it is plain that the  
28 speaker is expressing a subjective view, an interpretation, a theory, conjecture, or

1 surmise, rather than claiming to be in possession of objectively verifiable facts[.]”  
2 *Gray v. St. Martin’s Press, Inc.*, 221 F.3d 243, 250 (1st Cir. 2000); *Haynes*, 8 F.3d at  
3 1227 (citing *Milkovich*); *see also* 50 Am. Jur. 2d Libel and Slander § 115 (“The kind  
4 of language used may signal to readers that a writer is not purporting to state or  
5 imply **actual, known facts**. The ad hominem nature of abusive epithets, vulgarities,  
6 and profanities **easily identifies** it as rhetorical hyperbole which, as a matter of law,  
7 cannot reasonably be understood as a statement of fact.”).

8 Courts routinely dismiss statements of ostensible fact if the reasonable reader  
9 would not think the allegedly defamatory statement is backed by actual facts. This is  
10 true even if a statement contains specific statements of provable (or disprovable) fact.  
11 *See, e.g., Torain I*, 2007 WL 2331073, at \*1 (statement that plaintiff was a “sick  
12 racist pedophile” was nonactionable because “no reasonable person would have  
13 believed that defendant was conveying a fact about plaintiff”); *Brian v. Richardson*,  
14 660 N.E.2d 1126, 1131 (N.Y. Ct. App. 1995) (statement was not actionable where its  
15 “predominant tone . . . was rife with rumor, speculation and seemingly tenuous  
16 inferences, furnish[ing] clues to the reasonable reader that [the article] was  
17 something less than serious, objective reportage”); *Krinsky*, 159 Cal. App. 4th at  
18 1177 (statement that plaintiff “has poor feminine hygiene” was not defamatory  
19 because “nothing in this [statement] suggested that the author was imparting  
20 knowledge of actual facts to the reader”); *Geckosystems*, 2013 WL 4054147, at \*7-8  
21 (internet accusation that plaintiff committed acts of incest were not actionable  
22 because “[n]o ordinary reader would interpret the vitriol . . . seriously, as if they were  
23 based upon a factual foundation”); *Finkel*, 906 N.Y.S.2d at 702 (internet accusation  
24 that plaintiff, among other things, had “sex with a horse” and “contracted AIDS from  
25 a male prostitute” were not defamatory because the “reasonable reader, given the  
26 overall context of the posts, simply would not believe [them]”).

27 But this Court need not return to First Amendment first principles; it can rely  
28 on the rule from *Torain*—a case that Unsworth incorrectly claims is distinguishable

1 on the facts but for which he does not contest the legal standard. *See* 2007 WL  
 2 2331073, at \*3. There, after a “war of words” between plaintiff and defendant, the  
 3 defendant called the plaintiff a “racist pedophile.” *Id.* The court analyzed, as a  
 4 matter of law, whether “considering the over-all context and the circumstances in  
 5 which defendant’s statements were made,” if the “reasonable person would have  
 6 believed that defendant was conveying a fact about plaintiff—i.e., that plaintiff was  
 7 engaging in acts of pedophilia.” *Id.* It concluded that the plaintiff had not met that  
 8 standard, since the context was such that “an informed listener would [not] think that  
 9 defendant was accusing plaintiff of being a pedophile *based on some information*  
 10 *known only to him.*” *Id.* (emphasis added).

11 In fact, Unsworth understood that he was required to prove that the reasonable  
 12 reader would believe Musk possessed private facts implicating Unsworth as a  
 13 pedophile. *He pleaded as much in his complaint.* (Compl. ¶ 139 (alleging that Musk  
 14 “conveyed to the world that he was in possession of undisclosed false and  
 15 defamatory facts proving Mr. Unsworth to be guilty of the accusations Musk lodged  
 16 against him”).) Now faced with a convincing argument that he cannot plausibly  
 17 plead facts to support that allegation, Unsworth resorts to heckling—calling that  
 18 standard “preposterous” and “disingenuous at best.” (Opp. at 1, 13.) But despite  
 19 criticizing this standard, Unsworth cites cases proving that it is foundational. (*See,*  
 20 *e.g.,* Opp. at 20 (citing cases that found a statement to be defamatory when “the  
 21 defendant touted his first-hand knowledge” and when the defendant “claimed to  
 22 know where the plaintiff lived”).<sup>18</sup>

23

24 <sup>18</sup> The facts of *PG Inn, Inc. v. Gatward*, 2014 WL 108412 (Cal. App. 2014) support  
 25 Musk’s motion. The defendant in that case was an environmental remediation expert  
 26 hired by the plaintiff motel to fix its mold problem. Even though the defendant  
 27 eliminated the mold, he went on Yelp, explained his credentials, said extensive  
 28 remediation efforts had failed, and claimed that “the mold problem still exists.” *Id.*  
 at \*1. The court reasoned that the defendant’s statements were not mere “Internet  
 rants” since he portrayed himself as “an environmental expert with first-hand  
 knowledge of conditions at the Inn.” *Id.* at \*5. In contrast, Musk made clear he was  
 (Continued...)

1           **B.     Unsworth Mischaracterizes and Misapplies *Milkovich***

2           Unsworth’s next move is to argue that Musk’s motion “is controlled by the  
3 majority opinion in the Supreme Court of the United States’ case of *Milkovich v.*  
4 *Lorain Journal.*” (Opp. at 1.) He then faults Musk for citing “*Milkovich* only  
5 twice,” each time citing “openly” to Justices Brennan and Marshall’s dissent. (*Id.*)  
6 Unsworth’s *Milkovich* analysis has three flaws.

7           First, *Milkovich* does not “control” this case. *Milkovich* is narrow. It held that  
8 even statements couched as opinions may be unprotected if they imply a defamatory  
9 factual assertion. *Milkovich*, 497 U.S. at 19 (“Simply couching such statements in  
10 terms of opinion does not dispel these implications....”). And it offers, as example,  
11 an often-quoted illustration: “If a speaker says, ‘In my opinion John Jones is a liar,’  
12 he implies a knowledge of facts which lead to [that] conclusion.” *Milkovich*, 497  
13 U.S. at 18-19.

14           *Milkovich* involves the inverse scenario to that which is presented here:  
15 statements that may look like fact but are understood as nonactionable opinion. Such  
16 statements are governed by the legal rules and cases outlined above. *Milkovich* itself  
17 recognizes this separate line of cases. *Id.* at 16-17 (describing cases establishing the  
18 “constitutional limits on the *type* of the speech which may be the subject of state  
19 defamation actions,” which provides protection for “rhetorical hyperbole” and  
20 “vigorous epithets”). Indeed, “*Milkovich* did not depart from the multi-factored  
21 analysis that had been employed for some time by lower courts seeking to distinguish  
22 between actionable fact and nonactionable opinion.” *Phantom Touring, Inc. v.*  
23 *Affiliated Publications*, 953 F.2d 724, 727 (1st Cir. 1992).

24  
25  
26  
27 not delivering objective, inside information. As shown in the motion, in the cases far  
28 more analogous to the facts here, the relevant statements were found to be  
nonactionable. See, e.g., *Krinsky*, 159 Cal. App. 4th at 1154; *Feld v. Conway*, 16 F.  
Supp. 3d 1, 4 (D. Mass. 2014).

1        Second, Unsworth mistakenly believes that the *Milkovich* “majority forecloses  
2 [Musk’s] requests for relief.” (Opp. at 1.) But to the extent the *Milkovich* majority  
3 supports either party, it supports Musk. As courts have recognized, critical to  
4 *Milkovich*’s reasoning was that the reasonable reader would have believed the  
5 speaker to have possessed first-hand facts. While Unsworth mines the *Milkovich*  
6 opinion for helpful-sounding language, the case’s full context shows why the rule  
7 identified in Musk’s motion is correct:

8                In *Milkovich*, the author of the article indicated that he had  
9                been at the sports event in question and had seen the  
10                altercation that was at issue. He had also personally  
11                observed the plaintiff’s testimony in an initial administrative  
12                and later judicial hearing. In fact, the columnist described  
13                himself as perhaps the only disinterested person to observe  
14                the match and, at least, the initial testimony. In other words,  
15                the writer presented himself as uniquely situated to report on  
16                factual events.

15 *Faltas v. State Newspaper*, 928 F. Supp. 637, 647–48 (D.S.C.), *aff’d*, 155 F.3d 557  
16 (4th Cir. 1998). Given these facts, “a reader reasonably could have understood the  
17 reporter in *Milkovich* to be suggesting that *he* was *singularly capable* of evaluating  
18 the plaintiffs’ conduct.” *Phantom Touring*, 953 F.2d at 730–31 (emphasis added).

19                Given the facts of *Milkovich*, courts often cite it to show the importance of  
20 first-hand knowledge by the speaker. As the Seventh Circuit explained in *Haynes*:  
21 “A statement of fact is not shielded from an action for defamation by being prefaced  
22 with the words ‘in my opinion,’ but if it is plain that the speaker is expressing a  
23 subjective view, an interpretation, a theory, conjecture, or surmise, rather than  
24 claiming to be in possession of objectively verifiable facts, the statement is not  
25 actionable.” 8 F.3d at 1227 (citing *Milkovich*, 497 U.S. at 17-21).

26                Unsworth’s response to *Haynes* is unconvincing. He seems to suggest that the  
27 Seventh Circuit’s opinion results from a scrivener’s error—claiming that the Seventh  
28 Circuit “erroneously cited to *Milkovich*’s majority for the dissent’s proposition.”

1 (Opp. at 13.) By arguing—in a footnote no less—that the rule in *Haynes* “is not the  
2 law” because it conflates *Milkovich*’s dissent with its majority, Unsworth pits himself  
3 against at least 50 federal courts. Likely far more.<sup>19</sup>

4 Third, Unsworth draws a false distinction between the *Milkovich* majority and  
5 dissent. This artificial dichotomy provides Unsworth what he believes is his big  
6 gotcha moment, writing in bold italics on the first page of his opposition that “Musk  
7 openly cites to *Milkovich*’s ***dissent***.” (Opp. at 1.) Setting aside for now what Musk’s  
8 citations actually said, Unsworth misses the bigger point: the *Milkovich* majority and  
9 dissent agreed on the legal standard, disagreeing only on its application to the facts.

10 As both the dissent and later courts have recognized, any disagreement  
11 between the two opinions was fact-bound. *Id.* (“I part company with the Court at the  
12 point where it applies these general rules to the statements at issue in this case.”); *see*  
13 *also, e.g., id.* at 25 (“*As the majority recognizes*, the kind of language used and the  
14 context in which it is used may signal readers that an author is not purporting to state  
15 or imply actual, known facts.” (emphasis added)); *Kanaga v. Gannett Co.*, 687 A.2d  
16 173, 179 (Del. 1996) (“Justice Brennan . . . did not dispute the majority’s articulation  
17 of the legal standard, but he disagreed on the application of that standard to the facts  
18 of that case.”) Because the underlying standard in both opinions is the same, the  
19 dissent is often cited as authoritative. *See, e.g., Farah v. Esquire Magazine*, 736 F.3d  
20 528, 536 (D.C. Cir. 2013) (citing the *Milkovich* dissent as precedential since it was  
21 “agreeing with majority”); *Unelko Corp. v. Rooney*, 912 F.2d 1049, 1053 n.2 (9th  
22 Cir. 1990) (citing the *Milkovich* dissent when describing the “the threshold question  
23 in defamation suits”).

24  
25  
26  
27 <sup>19</sup> Based on counsel’s review, it appears that at least 54 federal decisions directly  
28 quote *Haynes* for its “claiming to be in possession of objectively verifiable facts”  
language. This count does not include indirect citations (cases quoting the cases that  
quote *Haynes*) or cases that don’t quote *Haynes*’s language verbatim.

1           Moreover, Unsworth’s criticism that Musk’s motion “untenabl[y] reli[ed] on  
2 the *Milkovich* dissent” misses the mark. (Opp. at 1.) Musk cited the *Milkovich*  
3 dissent for the non-controversial proposition that a reasonable reader understands  
4 that parties to a pre-existing dispute are more likely to make statements that “rest  
5 [more] on passion rather than factual foundation.” *Milkovich*, 497 U.S. at 33 n.8  
6 (Brennan, J., dissenting). Justice Brennan himself cited a *Ninth Circuit* opinion for  
7 that proposition. *Id.* (citing *Info. Control Corp. v. Genesis One Computer Corp.*, 611  
8 F.2d 781, 784 (9th Cir. 1980)). Dozens of other cases say the same. (*See, e.g.*, Mtn.  
9 at 12-15 (citing cases).) Yet Unsworth made this non-issue the primary frame of his  
10 opposition. (*See* Opp. at 1, 7-8, 13, 19.)

11           **C.     Unsworth’s Proffered Legal Standard is Unsupported and Incorrect**

12           Understanding that the correct legal standard identified and applied in Musk’s  
13 motion defeats Unsworth’s defamation claim, Unsworth instead offers his own legal  
14 standard:

15                     It is not the law that opinions communicating that a crime  
16 occurred are protected “unless” they imply the existence of  
17 undisclosed facts; to the contrary, statements asserted to be  
18 opinion are unprotected “unless” the writer discloses the  
19 underlying basis for a defamatory opinion, and “even if” the  
20 basis is disclosed, opinions remain unprotected if that basis  
21 is false or incomplete.

22 (Opp. at 2.) Unsworth cites no cases supporting his sweeping new defamation test.  
23 Indeed, every important part of Unsworth’s proposed rule is wrong.

24           Unsworth first sows confusion by developing a special interpretive rule for  
25 “opinions communicating a crime,” thus making the doctrine of defamation per se a  
26 centerpiece of his opposition. (*See, e.g.*, Opp. at 9 (“Indeed, perhaps the clearest  
27 example of libel per se is an accusation of a crime.” (citation and alteration omitted));  
28 *id.* at 20 (summarizing a case in which “an anonymous internet posting on website  
that petitioners were ‘bribed’ was defamatory *per se*”).)

1 The defamation per se doctrine has no application to this motion. That  
 2 doctrine is narrow. It relieves a defamation plaintiff of proving actual damages as an  
 3 element of his claim when a defamatory statement communicates certain inherently  
 4 damaging things—including involvement in a criminal activity. *Clifford v. Trump*,  
 5 339 F. Supp. 3d 915, 925 (C.D. Cal. 2018). Because Musk did not move to dismiss  
 6 based on Unsworth’s failure to plead damages, defamation per se is irrelevant. *Id.*

7 Unsworth seeks to transform defamation per se from a rule of damages into a  
 8 canon of interpretation. Similar attempts have consistently been rejected. *See*  
 9 *Torain I*, 2007 WL 2331073, at \*3 (rejecting the argument that “if you call someone  
 10 a pedophile, it’s defamatory, period, if it’s not true”)<sup>20</sup>; *Clifford*, 339 F. Supp. 3d at  
 11 919 (rejecting argument that a “tweet was defamation *per se* because it charged [the  
 12 plaintiff] with committing a serious crime,” since the tweet in context would have  
 13 been understood as a “hyperbolic statement”); *Mattel, Inc. v. MCA Records, Inc.*, 28  
 14 F. Supp. 2d 1120, 1160–61 (C.D. Cal. 1998), *aff’d*, 296 F.3d 894 (9th Cir. 2002)  
 15 (rejecting plaintiff’s argument that “statements amount to libel per se” because the  
 16 defendant “merely employed hyperbole”). And for reason. A rule that speakers  
 17 cannot use language invoking criminal behavior—even as hyperbole or insult—  
 18 would be an unconstitutionally blunt instrument. *See Torain*, 2007 WL 2331073, at  
 19 \*3 (“[P]ure opinions are immune from all defamation claims, even claims of *per se*  
 20 defamation.”); *see also Nat. Ass’n of Letter Carriers v. Austin*, 418 U.S. 264, 272

21  
 22  
 23  
 24 <sup>20</sup> One of the cases Unsworth cites—*Longbehn v. Schroenrock*, 727 N.W.2d 153  
 25 (Minn. 2007)—did apply this sort of simplistic reasoning. There, the defendant  
 26 called the plaintiff “‘Pat the Pedophile’ because of his relationship with [an] 18-year-  
 27 old woman.” *Id.* at 157. Even though the jury found that this statement “did not  
 28 accuse [plaintiff] of actually being a pedophile,” the court reversed because it  
 thought that “in almost every circumstance a reasonable listener would believe that  
 calling a person a pedophile imputes serious sexual misconduct or criminal activity  
 to that person. It is, therefore, defamatory per se.” *Id.* at 159. This opinion  
 misapplies the defamation per se doctrine and cannot be squared with better-reasoned  
 federal cases, including from this Circuit.

1 (1974) (protecting speech that “might well be deemed actionable per se in some state  
2 jurisdictions”).

3 Unsworth next argues that “statements asserted to be opinion are unprotected  
4 ‘unless’ the writer discloses the underlying basis for a defamatory opinion.” (Opp. at  
5 2.) Again, Unsworth is wrong. It’s true that “a speaker who outlines the factual  
6 basis for his conclusion is protected by the First Amendment.” *Price v. Stossel*, 620  
7 F.3d 992, 1004 (9th Cir. 2010). But that’s not the only way a statement receives  
8 constitutional protection. As the Supreme Court has explained, the First Amendment  
9 protects not just opinions based on disclosed facts, but also “imaginative  
10 expressions,” “rhetorical hyperbole,” “vigorous epithets,” and so on. *Milkovich*, 497  
11 U.S. at 20; *see also, e.g., Clifford*, 339 F. Supp.3d at 927 (holding that a tweet stating  
12 that plaintiff had fabricated the commission of a crime—and that did not disclose any  
13 basis for that statement—was “rhetorical hyperbole”). These protections are time  
14 honored; experience has shown they’ve “traditionally added much to the discourse of  
15 our Nation.” *Milkovich*, 497 U.S. at 20.

16 Unsworth then argues that “even if the basis is disclosed, opinions remain  
17 unprotected if that basis is false or incomplete.” (Opp. at 1.) As noted above,  
18 Unsworth’s statement of the rule is misleadingly incomplete. To be actionable, a  
19 disclosed basis must be false or incomplete *and itself defamatory*. *See Yagman*, 55  
20 F.3d at 1439 (“A statement of opinion based on fully disclosed facts can be punished  
21 only if the stated facts are themselves false and demeaning.”)

22 Without a case that supports his standard, Unsworth turns again to *Milkovich*,  
23 which held that a statement was defamatory because the context did not “negate the  
24 impression that the writer was seriously maintaining that petitioner committed the  
25 crime of perjury.” (Opp. at 16 (quoting 497 U.S. at 21). But Unsworth ignores that  
26 the speaker in *Milkovich* was “seriously maintaining” his statement because, as later  
27 courts have explained, he gave the impression that he was communicating first-hand  
28 knowledge. *See Phantom Touring*, 953 F.2d at 730-31 (“[A] reader reasonably could

1 have understood the reporter in *Milkovich* to be suggesting that he was singularly  
2 capable of evaluating the plaintiffs’ conduct.”).

3 Unsworth instead asserts that the relevant question is whether the reasonable  
4 reader thinks the speaker subjectively believes his accusation, even if it is clear to the  
5 reader that the accusation is pure “conjecture.” (Opp. at 1, 3, 13.) Thus, according to  
6 Unsworth, “[i]t is not necessary that anyone believe [allegedly defamatory  
7 statements] to be true, since the fact that such words are in circulation at all must be  
8 to some extent injurious to [a plaintiff’s] reputation.” (*Id.* (citation and alterations  
9 omitted).)

10 Musk prevails under even this standard, since the reasonable reader would not  
11 have thought Musk was “seriously maintaining” that Unsworth was sexually  
12 attracted to children or engaged in sex acts with children.<sup>21</sup> (*See also infra* Part II.D.)  
13 But for the reasons explained above, Unsworth’s rule is also inconsistent with  
14 precedent. *Compare* Opp. at 3 (“It is not necessary that anyone believe [allegedly  
15 defamatory statements] to be true.” (emphasis added)), with *Dupuis v. City of*  
16 *Hamtramck*, 502 F. Supp. 2d 654, 658 (E.D. Mich. 2007) (explaining that Supreme  
17 Court precedent requires that if a statement is not “reasonably believable”—  
18 including if it would be understood as a “crude or meanspirited” insult—then “there  
19 is no defamation”), and *Torain*, 2007 WL 2331073, at \*1 n.1 (finding that defendants  
20 statements were nonactionable even though his public statements showed that “he  
21 truly believed plaintiff’s remarks were genuine threats”), and *Brian*, 87 N.Y.2d at 53  
22 (holding that a statement was not actionable when the “reasonable reader would  
23  
24

---

25 <sup>21</sup> That was, in fact, the point of Musk’s motion. *In context*, Musk’s statements are  
26 reasonably interpreted as hyperbole, invective, taunting, and the like. (*See, e.g.*, Mtn.  
27 at 14 (“The reasonable reader of Musk’s statements would have known that they  
28 were mere epithets, fiery rhetoric or hyperbole.”); *id.* at 18 (“Musk’s statements . . .  
utilize the same sort of imaginative and non-literal insults that courts deem  
opinion.”). They would not be interpreted as a sincere accusation that “Unsworth is  
raping children.” (Opp. at 15.)

1 understand the statements defendant made about plaintiff *as mere allegations* to be  
2 investigated rather than as facts”).

3 **D. Applying the Correct Legal Standard, Unsworth Fails to Carry His**  
4 **Burden to Allege Actionable Defamation**

5 Unsworth does not carry his burden to show that the reasonable reader would  
6 believe Musk possessed private facts implicating Unsworth as a pedophile. *See Troy*  
7 *Group*, 364 F. Supp. 2d at 1152.

8 Unsworth’s analysis fails to consider the importance of context. “What  
9 constitutes a statement of fact in one context may be treated as a statement of opinion  
10 in another, in light of the nature and content of the communication taken as a whole.”  
11 *Gregory v. McDonnell Douglas Corp.*, 552 P.2d 425, 428 (Cal. 1976). Thus, context  
12 is “paramount” and can alone “be dispositive.” *Knieval*, 393 F.3d at 1075; *Koch v.*  
13 *Goldway*, 817 F.2d 507, 509 (9th Cir. 1987) (“Context does resolve the matter.”). To  
14 determine whether a statement is factual, courts consider “the totality of the  
15 circumstances in which it was made.” *Underwager*, 69 F.3d at 366.

16 The surrounding context—the “totality of the circumstances”—  
17 overwhelmingly supports Musk. Rather than consider these relevant circumstances  
18 *together*, Unsworth instead approaches these factors with tunnel vision—trying to  
19 pick them off one at a time.<sup>22</sup> Even those arguments fail.

20 1. *Internet as Context*: Unsworth argues that Musk seeks “absolute immunity”  
21 for Twitter posts. (Opp. at 17.) Not so. Instead, citing on-point precedent, Musk  
22 argues that statements made on certain unmoderated internet fora are *presumptively*  
23

---

24 <sup>22</sup> Similarly, Unsworth contends that Musk’s statements “must be analyzed  
25 separately . . . because they were made in very different contexts.” (Opp. at 15.)  
26 This argument ignores the “totality” approach, and would be particularly  
27 inappropriate in a case where each statement in the dispute was part of an ongoing  
28 public battle. *See, e.g., Torain*, 2007 WL 2331073, at \*3 (noting that the “extensive  
media coverage surrounding plaintiff’s comments makes it impossible that an  
informed listener would think that defendant was accusing plaintiff of being a  
pedophile”); *Feld*, 16 F. Supp. 3d at 4 (“The tweet cannot be read in isolation, but in  
the context of the entire discussion.”).

1 nonactionable opinion. (Mtn. at 11-12 (quoting *Summit Bank*, 206 Cal. App. 4th at  
 2 696 (explaining that the reader “should be *predisposed* to view [such statements]  
 3 with a certain amount of skepticism, and with an understanding that they will *likely*  
 4 present one-sided viewpoints rather than assertions of provable facts” (emphasis  
 5 added)).

6 Since the reasonable reader is reasonable, she can tell the difference between a  
 7 Twitter insult (nonactionable opinion) and an official press release issued through  
 8 Twitter (potentially actionable fact). Just like she can distinguish between tweets  
 9 that are sometimes “official statements” of the U.S. Government and at other times  
 10 mere “rhetorical hyperbole” by a high-ranking government official, even when sent  
 11 from the same Twitter account.<sup>23</sup>

12 2. Back-and-Forth Dispute: Unsworth argues that this case does not involve a  
 13 “back and forth argument.” (Opp. at 18.) He reaches that conclusion by obscuring  
 14 the real facts. He takes no responsibility for attacking Musk. (Opp. at 18  
 15 (“[Unsworth] responded with colorful but well-founded criticisms—none of which  
 16 were the kind of personal attacks leveled by Musk.”).) And he entirely ignores that  
 17 his counsel reignited the dispute through his behavior on Twitter. (Mtn. at 5 n.6.)

18 Unsworth cites only one opinion—*Dickinson v. Cosby*, 17 Cal. App. 5th 655,  
 19 691 (2017)—for his claim that statements made in these circumstances wouldn’t be  
 20 recognized as opinion. That opinion is both incorrect and non-binding. It found that  
 21 a defamation claim against Bill Cosby could move forward based on *statements by*  
 22 *his lawyer* that categorically denied a rape claim against Cosby. *Id.* at 461 (“Janice  
 23 Dickinson’s story accusing Bill Cosby of rape is a lie.”). Two federal courts have  
 24 rightly turned to the Constitution to reject similar defamation claims filed against  
 25

26 <sup>23</sup> *Compare Trump v. Hawaii*, 138 S. Ct. 2392, 2438 n.1 (2018) (Sotomayor, J.,  
 27 dissenting) (“According to the White House, President Trump’s statements on  
 28 Twitter are ‘official statements.’”), *with Clifford v. Trump*, 2018 WL 4997419, at \*8  
 (treating as “rhetorical hyperbole” a tweet from President Trump accusing the  
 plaintiff of lying and calling her a “total con job”).

1 Cosby. *See Hill v. Cosby*, 665 F. App'x 169, 177 (3d Cir. 2016); *McKee v. Cosby*,  
 2 874 F.3d 54, 63 (1st Cir. 2017); *see also Leidholdt v. L.F.P. Inc.*, 860 F.2d 890, 893  
 3 (9th Cir. 1988) (“The distinction between alleged fact and opinion is a question of  
 4 federal law.”)

5 Indeed, by the time of the BuzzFeed emails—after Unsworth’s counsel stirred  
 6 the pot with sarcastic legal threats<sup>24</sup>—Musk’s statements were “*highly unlikely* to be  
 7 understood by their audience as statements of fact.” *Info. Control Corp.*, 611 F.2d at  
 8 784 (emphasis added).

9 3. Disclosed Facts. Though required by caselaw, Unsworth didn’t even  
 10 attempt to show how Musk’s disclosed facts were “both false *and* defamatory.”  
 11 *McKee*, 874 F.3d at 63. That’s because they were not.

12 Referencing Thailand’s documented reputation, Musk first tweeted that  
 13 Unsworth was “sus” for being a “British expat guy who lives in Thailand.” (*Id.* ¶ 73.)  
 14 Later in an e-mail to Buzzfeed, Musk included a hyperlink to a Google search of  
 15 “Chiang Rai child trafficking.” (*Id.* Ex. K, p. 56; *Adelson v. Harris*, 973 F. Supp. 2d  
 16 at 484, *aff’d*, 876 F.3d 413 (2d Cir. 2017) (explaining hyperlinks are the “twenty-first  
 17 century equivalent of the footnote for purposes of attribution in defamation law”);  
 18 *see also People v. Paniagua*, 209 Cal. App. 4th 499, 521 (2012) (reasoning that the  
 19 “prosecution did not [need to] explicitly tell the jury that defendant may have gone to  
 20 Thailand to have sex with children” because that “was implicit in the mere mention  
 21 of Thailand” (alterations omitted)).)

---

22  
 23 <sup>24</sup> These unpleaded tweets are properly considered on Musk’s motion to dismiss. To  
 24 properly evaluate context, a court “must take into account all parts of the  
 25 communication that are ordinarily heard or read with it.” *Knievel v. ESPN*, 393 F.3d  
 26 1068 (9th Cir. 2005); *Knievel v. ESPN*, 393 F.3d 1068 (9th Cir. 2005); *see also*  
 27 *Torain v. Liu*, 279 F. App'x 46, 47 n.1 (2d Cir. 2008) (holding that it was proper to  
 28 consider statements made by a defamation plaintiff during a “war of words” with  
 defendant, even though those statements did not appear in the complaint).

For this same reason, Musk did not “flout” the Federal Rules in his motion. (Opp. at  
 6 n.5.) Indeed, each exhibit attached by Musk was referenced in Unsworth’s  
 complaint or the attached exhibits.

1           These facts—even if false—cannot defame Unsworth. Musk’s imaginative  
2 insults referring back to those facts can’t defame Unsworth either. *McKee*, 874 F.3d  
3 at 63.

4           4. *Acerbic Insults*: Unsworth argues that Musk’s “accusation of pedophilia is  
5 not a typical over-the-top insult a reasonable reader would anticipate hearing.” (Opp.  
6 at 19-20.) Yet Musk’s motion cited cases protecting statements that plaintiffs had,  
7 among other things, “contracted aids from a male prostitute,” “committed acts of  
8 incest,” and had “poor feminine hygiene.” (Mtn. at 9, 18.) Indeed, such insults are  
9 less likely to be understood as fact by the reasonable reader. *Dworkin v. Hustler*  
10 *Mag. Inc.*, 867 F.2d 1188, 1194 (9th Cir. 1989) (“Ludicrous statements are much less  
11 insidious and debilitating than falsities that bear the ring of truth.”); *Clifford*, 2018  
12 WL 4997419, at \*8 (“As the United States Supreme Court has held, a published  
13 statement that is ‘pointed, exaggerated, and heavily laden with emotional rhetoric  
14 and moral outrage’ cannot constitute a defamatory statement.” (quoting *Milkovich*,  
15 497 U.S. at 32)).

16           Unsworth’s attempts to distinguish these cases fall short. His treatment of  
17 *Torain I* is illustrative. Unsworth correctly notes that the *Torain I* defendant was set  
18 off by the plaintiff’s graphic statements “concerning the young daughter of [a rival]  
19 disk-jockey.” 2007 WL 2331073, at \*1. He is also correct that the court reasoned an  
20 “informed listener” would understand the defendant’s comments to refer back to this  
21 dispute. *Id.* at \*3. But then Unsworth makes an unsupportable leap in logic, arguing  
22 that *Torain I* does not apply because Musk wasn’t “basing his accusations of  
23 pedophilia on Unsworth’s statement that Musk ‘can stick his submarine where it  
24 hurts.’” (Opp. at 19.) Put another way, Unsworth argues that a party to a back-and-  
25 forth dispute has license to insult the *content* of other side’s statements and nothing  
26 else. (*Id.*) *Torain* contains no such limitation. So long as the “informed listener”  
27 will understand that the insult is not “based on some undisclosed information known  
28 only to him,” then the insult is nonactionable. 2007 WL 2331073, at \*3.

1 The facts here parallel *Torain I* in every way that matters. The informed  
 2 listener understood Musk’s insult to be based on Unsworth’s connection to Thailand.  
 3 The listener likely understood that Unsworth had found joy in insulting Musk:

12 (See *supra* CNN Video; see also *Torain*, 2007 WL 2331073, at \*2 (holding that  
 13 because the reasonable reader knew the defendant’s statements were “made in direct  
 14 response to what he considered to be plaintiff’s outrageous and offensive on-air  
 15 comments, the statements were “clearly statements of opinion”).) If Unsworth’s  
 16 insults are nonactionable, so too are Musk’s. See *Jacobus v. Trump*, 51 N.Y.S.3d  
 17 330, 342 (N.Y. Sup. Ct.), *aff’d*, 64 N.Y.S.3d 889 (N.Y. App. Div. 2017) (insults  
 18 unrelated to the content of a plaintiff’s statements were nonactionable because it  
 19 “followed plaintiff’s negative commentary about [the defendant],” which “signals to  
 20 readers that plaintiff and [defendant] were engaged in a petty quarrel”).

21 5. *Informal Speech*: Unsworth does not address the many decisions holding  
 22 that statements that lack the “formality and polish typically found in documents []  
 23 which a reader would expect to find facts” are treated as opinion. *ComputerXpress,*  
 24 *Inc. v. Jackson*, 93 Cal. App. 4th 993, 1012 (2001); see also *Global Telemedia Int’l,*  
 25 *Inc. v. Doe I*, 132 F. Supp. 2d 1261, 1269 (C.D. Cal. 2001) (informal style “alert[s] a  
 26 reasonable reader to the fact that these observations are probably not written by  
 27 someone with authority or firm factual foundations for his beliefs”).  
 28

1 He instead cites three cases for the proposition that “courts find similarly  
 2 colloquial accusations actionable.” (Opp. at 20.) The first opinion is a state trial  
 3 court order denying an Anti-SLAPP motion against controversial actor James  
 4 Woods. (Opp. Ex. 1.) That case began with Woods tweeting: “USATODAY app  
 5 features Bruce Jenner’s latest dress selection, but makes zero mention of Planned  
 6 Parenthood baby parts market.”<sup>25</sup> In direct response, a Twitter user referred to  
 7 Woods as a “clown” and a “cocaine addict.” That user’s speech—a hyperbolic  
 8 rebuke to Woods’s purposefully polemical tweet—should have been protected. But  
 9 the court instead denied the defendant’s Anti-SLAPP because there was an “issue of  
 10 fact” created by an *expert linguist’s* testimony about how the reasonable reader  
 11 would understand the tweet. (Opp. Ex. 1.)<sup>26</sup> This reasoning is inconsistent with the  
 12 law in this Circuit that holds that “whether an allegedly defamatory statement is a  
 13 statement of fact or statement of opinion is a question of law.” *Info. Control*, 611  
 14 F.2d at 783. Neither of the remaining opinions Unsworth cites even addresses the  
 15 importance of linguistic informality. *See Cahill v. Edalat*, 2017 WL 2608857, at \*4  
 16 (C.D. Cal. Feb. 15, 2017); *Maxon v. Ottawa Pub. Co.*, 929 N.E.2d 666, 677-78 (3d  
 17 Dist. 2010).

18 6. Qualifying Language: It is not enough for Unsworth to prove that the  
 19 reasonable reader would think Musk subjectively believed Unsworth could be a  
 20 pedophile. (*Supra* Part II.A.) He must instead show that the reasonable reader thinks  
 21 Musk is “claiming to be in possession of objectively verifiable facts.” *Haynes*, 8  
 22 F.3d at 1227. With the proper frame, Musk’s tweets prove that he can’t be liable.

23 \_\_\_\_\_  
 24 <sup>25</sup> See Justin Moyer, *James Woods Sues Twitter User Who Called Him a ‘Cocaine Addict’*, Washington Post (July 31, 2015).

25 <sup>26</sup> Before opting to accept the legal reasoning of a paid expert linguist, the trial court  
 26 had tentatively granted the Anti-SLAPP. *See* David Goldman, *James Woods Can*  
 27 *Sue a Twitter User For Calling Him a Cocaine Addict*, CNN (Feb. 12, 2016) (“[T]he  
 28 judge had tentatively ruled that the case should be thrown out. But he said he was  
 convinced by the testimony of former USC linguistics professor Edward Finegan,  
 saying that the tweet’s syntax suggested that Abe List was making a factual  
 statement.”).

1 The two instances that Unsworth identifies as Musk “doubling down” in fact show  
2 that Musk told the reasonable reader he was just speculating. Musk first tweeted,  
3 “*Bet ya a signed dollar bill its true,*” showing that he didn’t know about Unsworth  
4 one way or another. He then tweeted “You don’t think it’s strange he hasn’t sued  
5 me?” again making clear that his speculation is unverified. *See Partington v.*  
6 *Bugliosi*, 56 F.3d 1147, 1157 (9th Cir. 1995) (“[D]efendant’s use of a question mark  
7 . . . makes clear his lack of definitive knowledge about the issue.”).

8 Unsworth leaves even more definitive qualifying language completely  
9 unaddressed. For example, Musk explicitly told all readers (reasonable and  
10 otherwise) that he had never met Unsworth. (Compl. ¶ 73 (“Never saw [Unsworth]  
11 . . . at any point when we were in the caves.”); *id.* ¶ 92 (“Never saw Unsworth at any  
12 point.”).) This alone show that Musk’s statements are nonactionable. *See Tipping v.*  
13 *Martin*, 2016 WL 397088, at \*5 (N.D. Tex. Feb. 2, 2016) (granting defendant’s  
14 motion to dismiss where there were “no allegations that [the defendant] had any  
15 knowledge about Plaintiff before encountering her for the first time at the [event  
16 where he allegedly defamed her], much less any knowledge concerning her personal  
17 life or the quality of her [professional] work”).

18 7. Reader Comments: Unsworth argues—with no caselaw support—that  
19 “Musk cannot point to statements by this small group of people that they thought  
20 Musk was just kidding or engaging in hyperbole.” (Opp. at 23.) Courts disagree.  
21 *See Doe v. Cahill*, 884 A.2d 451, 467 (Del. 2005) (finding that a statement was  
22 opinion in part because “a[t] least one reader of the blog quickly reached the  
23 conclusion that Doe’s comments were no more than unfounded and unconvincing  
24 opinion”); *Redmond v. Gawker Media, LLC*, 2012 WL 3243507, at \*6 (Cal. Ct. App.  
25 Aug. 10, 2012) (noting that a statement was treated as opinion by readers “[a]s  
26 shown by the comments posted” below the article). And while Unsworth identified a  
27 *single* commenter who thought Musk was “accusing” Unsworth of pedophilia, that  
28

1 does little to prove his case. (Opp. at 23.) He must show that reader believed Musk  
2 was “in possession of objectively verifiable facts.” *Haynes*, 8 F.3d at 1227.

3 **IV. CONCLUSION**

4 For reasons known only to Unsworth, he chose to attack Musk—a total  
5 stranger—for Musk’s efforts to help the Thai government save the youth soccer  
6 team. Unsworth did so in the most public way he could: by going on international  
7 television, dismissing Musk and his team’s efforts as a mere “PR stunt,” and telling  
8 Musk to “shove” his rescue submarine “where it hurts.”

9 From 8,000 miles away, Musk learned of Unsworth’s comments and was  
10 rightly angered that his and his teams’ efforts were being slandered. Musk’s  
11 responses have all the hallmarks of nonactionable opinion. They were made in direct  
12 response to Unsworth’s unjustified and false personal attacks. They disclaimed any  
13 first-hand basis. Musk’s statements were made on unmoderated internet forums  
14 where readers know to expect opinion, not facts. They were written with informality  
15 and emotion. And they traded on a disclosed, well-known trope about Thailand.

16 In these circumstances, the reasonable reader would not believe Musk’s  
17 insults. Unsworth’s complaint should be dismissed.
