I, Gerald Michael Dodaro, being of legal age and competent to testify; swear under penalty of perjury of the State of Washington, the following statement is correct.

On November 16, 2012, I attended a hearing for partial summary judgment in the matter of Lane Powell v. Mark DeCoursey and Carol DeCoursey, Case No. 11-2-34596-3-SEA, Judge Richard D. Eadie presiding.

My observations were these:

The judge seemed to ignore important facts in the testimony of Mark DeCoursey about dubious documentation of charges by Lane Powell.

The judge also would not reply to Carol DeCoursey in her request for an explanation for not discussing the records she had presented demonstrating false and contradictory testimony by Lane Powell.

The judge seemed too willing to accept a handwritten document presented by Lane Powell's attorney Robert Sulkin. I later saw the document, and it is illegible.

The judge politely ignored Mark and Carol DeCoursey and seemed willing to be led through the whole proceeding by Lane Powell attorney Sulkin.
