Re: Miscarriage of Justice

Dear Walter,

I genuinely appreciate your willingness to look at my documents through regular mail. I am a bit too old to understand how to send things email. I used to understand electronics and computers when they first came out and made my own programs. Now I find it difficult to figure out my cell phone.

I am sending you a grievance that I intend to file with the Dayton, Ohio Bar Association against my former attorney. If you read between the lines, you will see that the judge was also inappropriate. Anybody who tries to sue a lawyer, claim that a judge did something wrong, or complain that a prosecutor has crossed the line, is facing an forceful undercurrent of opposition.

The judge dismissed the malpractice case. He favored the defendant law office that would contribute to his campaign to elect him from an appointment.

I hope you have the time to look this over and let me know what you think. I really admire your quest to bring attention to faults in our judicial system. I guess you know there are many books out about the fallacies of the federal justice system.

Thank you for everything that you are doing out only for me but for everyone else.

Very truly yours,

Robert Schwartz
